ROSHAN TRIVEDI

IAM & PAM Platform Owner and Architect | Credential Management · Zero Standing Privilege · Non-Human Identity

Bengaluru, India | trivedi.roshan1@gmail.com
roshantrivedi.co.in | linkedin.com/in/roshan-trivedi-ciam | github.com/trivediroshan1-ui

EXECUTIVE PROFILE

Credential-management and privileged-access platform leader with 14+ years of experience building and governing enterprise IAM and PAM capabilities across India, the United Kingdom and Australia. Owns platform architecture, product strategy, service design and roadmap execution, with delivery across Zero Standing Privilege, platform proofs of value, secrets governance, IAM control mapping, non-human identity and cloud security. Has led and mentored delivery teams since 2017, and works directly with security leadership, application owners and auditors.

CORE CAPABILITIES

Leadership: Credential management platform ownership | PAM product strategy & roadmap | Security architecture | Stakeholder governance | Team leadership & mentoring | Global delivery

Identity security: Privileged lifecycle governance | JIT / Zero Standing Privilege | Credential and secrets management | Non-human identity | Audit readiness

Platforms: CyberArk (incl. Privilege Cloud) | BeyondTrust | Saviynt CPAM | HashiCorp Vault | SailPoint IdentityIQ | Microsoft Entra ID | StrongDM | Delinea | Clutch Security | Wiz

Controls: IAM control mapping | NIST CSF 2.0 | NIST SP 800-53 | ISO 27001 | PCI DSS | Control lineage | Ownership / RACI | Evidence design | Remediation governance

AI security: Agentic AI identity | MCP and human approval for agent tool calls | AI governance controls | LLM and agent workflows

PROFESSIONAL EXPERIENCE

Credential Management Platform & PAM Product Owner | Cargill

Nov 2025 – Present

Senior Consultant | Bengaluru, India | Hybrid

- Own the enterprise credential-management platform and PAM product portfolio: architecture, standards, service design and roadmap across vault, privileged-access and non-human-identity platforms; authored the enterprise service catalogue.
- Authored a multi-year PAM platform strategy and Zero Standing Privilege roadmap, turning a multi-vendor proof of value into a phased target architecture.
- Designed validation and implementation playbooks, with readiness gates, build phases and evidence controls, for privileged-access rollouts across Windows, Linux, network and ERP estates.
- Led a secrets inventory and ownership analysis across a large enterprise secrets estate, surfacing stale-secret and ownership patterns to guide governance and remediation.
- Led a capability-based decision analysis for non-human identity and cloud-security tooling, covering NHI lifecycle, hybrid risk, MCP and agentic-AI governance, integrations and operating-model fit.
- Support IAM audit and assurance by mapping identity controls to NIST CSF 2.0 and NIST SP 800-53, strengthening control lineage, ownership, evidence expectations and remediation governance.

Principal Engineer | Optiv

Apr 2024 – Nov 2025

Bengaluru, India | On-site

- Led PAM Center of Excellence initiatives and mentored the engineering team, strengthening frameworks, operating procedures, delivery standards and engineering capability across CyberArk and BeyondTrust.
- Architected CyberArk Privilege Cloud and Identity integrations with SIEM and Microsoft Entra SSO/MFA; delivered Workforce Password Management for a fintech environment.
- Implemented Secure Infrastructure Access for RDP/SSH with Zero Standing Privilege and Secure Web Sessions for controlled browser-based application access.

Specialist Manager | Deloitte

Aug 2022 – Mar 2024

Sydney, Australia | On-site

- Implemented CyberArk Privilege Cloud across development, pre-production and production environments for enterprise customers, leading the delivery team.
- Led a PAM current-state assessment and future-state roadmap for a major Australian bank, defining a multi-year strategy and target operating direction.
- Authored SOPs, design documents and as-built guides; mentored practitioners through CyberArk CDE-CPC certification and delivery training.

Manager – Senior Architect | EY Aug 2021 – Jul 2022

Bengaluru, India

- Owned end-to-end architecture, implementation and integration of CyberArk and BeyondTrust across on-premises, AWS and Azure environments.
- Defined PAM strategy, roadmaps, migration plans and onboarding waves with stakeholders and application owners; delivered SailPoint IIQ engineering and administration.

EARLIER EXPERIENCE

- **Manager** | Deloitte | Feb 2021 – Aug 2021 – Delivered identity and secrets-management engagements, including HashiCorp Vault.
- **Assistant Manager** | KPMG Global Services | Oct 2017 – Feb 2021 – Led risk governance and privileged/identity project delivery for global stakeholders; led and mentored a delivery team.
- **International CyberArk Assignment** | KPMG UK / National Grid | 3 months, Birmingham, UK – Selected through KPMG Global Services for an on-site assignment supporting National Grid's CyberArk project.
- **Senior Consultant** | KPMG | Sep 2015 – Sep 2017 – Delivered SailPoint IIQ, CyberArk and OpenAM/SAML SSO integrations, privileged identity management and session recording.
- **Deputy Manager** | Reliance Communications | Apr 2015 – Aug 2015 – Administered CyberArk Vault/PVWA, enterprise policy, safes and privileged-account onboarding.
- **Senior Software Engineer** | Accenture in India | Jun 2014 – Jan 2015 – Managed CyberArk onboarding, service accounts, LDAP integrations and operational controls.
- **Functional Consultant & Project Engineer** | Wipro | Nov 2011 – Apr 2014 – Built the foundation for enterprise technology, ERP and identity/security engineering delivery.

CERTIFICATIONS

Current: SailPoint Identity Security Leader Credential (Jun 2025) | CyberArk Certified Delivery Engineer – CPC (Apr 2025, valid to Apr 2027) | CyberArk Certified Delivery Engineer – PAM (Feb 2025, valid to Feb 2027) | CyberArk Defender – Endpoint Privilege Manager (Feb 2024) | CyberArk Sentry PAM (Feb 2023) | CyberArk Defender PAM (Feb 2023)

Lapsed: Certified Identity and Access Manager (CIAM), IMI (Sep 2024 – Sep 2026) | BeyondTrust Certified Administrator: Password Safe (Sep 2024 – Sep 2026) | CyberArk CDE – EPM (May 2024 – May 2026) | AWS Certified Solutions Architect – Associate (Feb 2019 – Feb 2022)

INDEPENDENT RESEARCH AND PUBLICATIONS

- **AI Governance Lab** (personal project, October 2026). 13 rounds and 164 test cases on made-up data checking whether AI-governance controls hold; every expected result is hashed before the code runs, and corrections are published. Free 69-page book. roshantrivedi.co.in/ai-governance-lab/
- **Who Approved That?** (October 2026). A free 138-page book on putting a human approval step in front of AI agent tool calls: 210 scripted checks, 81 use cases, mapped to the OWASP MCP Top 10. roshantrivedi.co.in/book/
- **Securing India's National Examinations: A Zero Trust Reference Architecture** (July 2026). A 30-page public-interest proposal covering threat modelling, HSM-based paper vaulting, breach-response playbooks, KPIs and a costed rollout. roshantrivedi.co.in/secure-india-exams/
- **Twenty privacy-safe case studies** on privileged access, non-human identity, governance and agentic AI. roshantrivedi.co.in/case-studies/

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering | Asansol Engineering College | 2007 – 2011 | CGPA 7.78
