EXECUTIVE PROFILE

Credential-management and privileged-access product leader with 14+ years of experience building and governing enterprise IAM and PAM capabilities. Owns platform architecture, product strategy, service design, and roadmap execution at Cargill, with evidence-backed delivery across Zero Standing Privilege, platform PoVs, secrets governance, IAM control mapping, non-human identity, cloud security, and AI-augmented analysis. Global experience spans India, the United Kingdom, and Australia.

SELECTED EXECUTIVE IMPACT

14+ YEARS IAM & PAM leadership	2026–2029 PAM / ZSP strategy	15K+ / 600+ Vault secrets / mounts	31 / 12 Capabilities / use cases
--	--	--	--

SIGNATURE CAPABILITIES

Leadership: Credential management platform ownership | PAM product strategy & roadmap | Security architecture | Stakeholder governance | Global delivery

Identity Security: Privileged lifecycle governance | JIT / Zero Standing Privilege | Credential and secrets management | NHI | Audit readiness

Modern Platforms: StrongDM | Delinea Secret Server & PRA | Clutch Security | Wiz

Core Platforms: CyberArk | BeyondTrust | Saviynt CPAM | HashiCorp Vault | SailPoint IdentityIQ | Microsoft Entra ID

Emerging Security & AI: Non-human identity (NHI) | MCP analysis | Agentic AI | OpenAI / ChatGPT | Claude | LLM and agent workflows

PROFESSIONAL EXPERIENCE

Credential Management Platform & PAM Product Owner | Cargill

Nov 2025 - Present

Senior Consultant | Bengaluru, India | Hybrid

- Own the enterprise credential-management platform and PAM product portfolio; lead architecture, standards, service design, StrongDM product management, and roadmap execution across HashiCorp Vault, ERPM, Delinea, Saviynt, Clutch, and Wiz; lead ERPM analysis/migration and authored the enterprise service catalog.
- Authored the 2026–2029 PAM platform strategy and Zero Standing Privilege roadmap, translating six weeks of live PoV results across Delinea, Saviynt CPAM, and StrongDM into a phased target architecture.
- Led Delinea Secret Server/PRA validation across Windows, Linux, network, and SAP, and designed a Saviynt CPAM playbook spanning 7 readiness gates, 8 build phases, and 16 evidence controls.
- Built a HashiCorp Vault inventory and ownership analysis covering 15K+ secrets across 600+ KV mounts, surfacing stale-secret and ownership patterns to guide governance and remediation.
- Produced a 31-capability, 12-use-case Wiz-versus-Clutch decision analysis covering NHI lifecycle, cloud and hybrid risk, MCP and agentic-AI governance, integrations, and operating-model implications.
- Support IAM audit and assurance by evaluating a 50-control register against NIST CSF 2.0 and NIST 800-53, strengthening control lineage, ownership, evidence expectations, and remediation governance.

Principal Engineer | Optiv

Apr 2024 - Nov 2025

Bengaluru, India | On-site

- Led PAM Center of Excellence initiatives, strengthening frameworks, operating procedures, delivery standards, and engineering capability across CyberArk and BeyondTrust.
- Architected CyberArk Privilege Cloud and Identity integrations with SIEM and Microsoft Entra SSO/MFA; delivered Workforce Password Management for a fintech environment.
- Implemented Secure Infrastructure Access for RDP/SSH with Zero Standing Privilege and Secure Web Sessions for controlled browser-based application access.

Specialist Manager | Deloitte

Aug 2022 - Mar 2024

Sydney, Australia | On-site

- Implemented CyberArk Privileged Cloud across development, pre-production, and production environments for enterprise customers.
- Led a PAM current-state assessment and future-state roadmap for a major Australian bank, defining a multi-year strategy and target operating direction.
- Authored SOPs, design documents, and as-built guides; mentored practitioners through CyberArk CDE-CPC certification and delivery training.

Manager - Senior Architect | EY

Aug 2021 - Jul 2022

Bengaluru, India

- Owned end-to-end architecture, implementation, and integration of CyberArk and BeyondTrust across on-premises, AWS, and Azure environments.
- Defined PAM strategy, roadmaps, migration plans, and onboarding waves with stakeholders and application owners; delivered SailPoint IIQ engineering and administration.

EARLIER EXPERIENCE

Manager | Deloitte | Feb 2021 - Aug 2021 - Delivered identity and secrets-management engagements, including HashiCorp Vault.

Assistant Manager | KPMG Global Services | Oct 2017 - Feb 2021 - Led risk governance and privileged/identity project delivery for global stakeholders.

International CyberArk Assignment | KPMG UK / National Grid | 3 months | Birmingham, UK - Selected through KPMG Global Services for an on-site business assignment supporting National Grid's CyberArk project.

Senior Consultant | KPMG | Sep 2015 - Sep 2017 - Delivered SailPoint IIQ, CyberArk, and OpenAM/SAML SSO integrations, privileged identity management, and session recording.

Deputy Manager | Reliance Communications | Apr 2015 - Aug 2015 - Administered CyberArk Vault/PVWA, enterprise policy, safes, and privileged-account onboarding.

Senior Software Engineer | Accenture in India | Jun 2014 - Jan 2015 - Managed CyberArk onboarding, service accounts, LDAP integrations, and operational controls.

Functional Consultant & Project Engineer | Wipro | Nov 2011 - Apr 2014 - Built the foundation for enterprise technology, ERP, and identity/security engineering delivery.

SELECTED CERTIFICATIONS

2025 SailPoint Identity Security Leader Credential (Jun) | CyberArk Certified Delivery Engineer - CPC (Apr) | CyberArk CDE - PAM (Feb)

2024 Certified Identity and Access Manager (CIAM), IMI (Sep) | BeyondTrust Password Safe Administrator (Sep) | CyberArk CDE - EPM (May)

2024 CyberArk Defender - Endpoint Privilege Manager (Feb)

2023 CyberArk Sentry PAM | CyberArk Defender PAM

2019 AWS Certified Solutions Architect - Associate

PUBLISHED SECURITY RESEARCH

Securing India's National Examinations - A Zero Trust Reference Architecture

- Authored and published a 30-page public-interest proposal applying Zero Trust to prevent NEET, JEE, and CUET paper leaks, covering threat modelling, AI-assisted content security, HSM-based paper vaulting, breach-response playbooks, KPIs, and a costed national rollout.

TECHNOLOGY & OPERATING MODEL

Modern Platforms: StrongDM product leadership | Delinea Secret Server and PRA PoCs | Clutch Security for NHI | Wiz cloud-security analysis

PAM / Secrets: CyberArk Privilege Cloud, PAM, EPM, SIA, SWS | BeyondTrust Password Safe | Saviynt CPAM | HashiCorp Vault | StrongDM | Delinea Secret Server / PRA | ERPM

Identity / NHI: SailPoint IdentityIQ | Microsoft Entra ID | Clutch Security | NHI discovery and analysis | SAML / SSO / MFA | Machine and privileged identity governance

Cloud Security: Wiz | AWS | Azure | Hybrid identity security | Cloud entitlement and risk visibility

Governance: Product roadmaps | Architecture reviews | Access controls | Credential lifecycle | Audit and compliance | Process improvement | Data-driven decisions

Audit & IAM Controls: IAM control mapping | NIST CSF 2.0 | NIST 800-53 | Lineage | Ownership / RACI | Evidence design | Remediation governance

AI-Augmented Delivery: Model Context Protocol (MCP) analysis | Agentic AI | OpenAI / ChatGPT | Claude | LLMs and AI agents | Research, solution analysis, documentation, and productivity

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering

Asansol Engineering College (AEC) | 2007 - 2011 | CGPA 7.78

LEADERSHIP STRENGTHS

Platform ownership | Product strategy | Executive communication | Architecture | Governance | Evidence-led decisions | Global delivery | Mentoring
